- Broaden insights with talks by leading professors
- Improve English communication skills with native English and bilingual teachers leading the program
- Experience museums and exhibitions that are leading in the world

Collaboration, innovation and sustainability
Hong Kong Summer Program

Introduction to Hong Kong

Hong Kong is one of the most energetic, modern, beautiful and efficient cities in the world. It uniquely embraces both Chinese and Western culture and is the most western city in Asia. Hong Kong is home to top ranking universities and corporations, and is a global finance hub. It boasts one of the most stunning skylines in the world while offering a lush outdoor environment, with over 40 official beaches and hundreds of kilometers of scenic hiking trails.

Introduction to the program

This program focuses on the following 4 areas that promote each student's personal development.

- **Origins of Hong Kong Day.** Students will visit Sheung Yiu Folk Museum, learning more about Hong Kong's indigenous people.
- **Outdoor Collaboration & Survival Skills Day**. Students will immerse in English-speaking teacher-led activities and games focused on collaboration, problem solving and survival skills. Students will pitch a tent, learn orienteering skills, engage in treasure hunts, among others.
- **Business & Innovation Day**. A leading CUHK professor and Cambridge scholar will speak exclusively to our students on youth entrepreneurship. Thereafter, students will visit the Hong Kong Monetary Authority and Hong Kong Science Museum, which is well-known for its interactive STEM activities.
- **Fun & Exploration Day.** Students will spend the day at Ocean Park, learning more about mammalian and marine life while enjoying the amusement park rides.
